

YYT SAFE DRYER VENTS
SAFETY, EFFICIENCY, RELIABILITY

IMPROVE THE EFFICIENCY OF YOUR DRYER

YOUR LOCAL DRYER VENT CLEANING EXPERTS

The National Fire Protection Association recommends dryer vent cleaning “once a year, or more often if you notice that it is taking longer than normal for your clothes to dry. Ensure you are cleaning lint out of the vent pipe regularly or have a dryer lint removal service do it for you.” Not only will your home be safer after a dryer vent cleaning, your clothes will take less time to dry and you’ll save on your energy bills.

REASONS TO SCHEDULE A DRYER VENT CLEANING

Help extend the life of your dryer! Regularly cleaning your dryer & vent will help ensure it is running at top efficiency.

Save on your utility bills. Multiple cycles to dry one load not only adds unnecessary wear on your dryer, it also increases your energy bills & usage.

Help eliminate a fire hazard! The Consumer Product Safety Commission estimates there are approximately 15,600 clothes dryer fires resulting in millions of dollars in property damage.
